

smartin

Smart digital solutions for
multimodal, accessible, resilient,
user-centric urban infrastructure

Co-funded by
the European Union

About SMARTIN

SMARTIN project aims to transform how transport infrastructure is managed and maintained across Europe.

By combining digitalisation, data analytics and artificial intelligence, SMARTIN develops innovative tools to improve safety, efficiency and sustainability in transport systems.

Through real-life demonstrations in 4 European countries, the project contributes to making mobility smarter, greener and more resilient, supporting the EU's climate and digital transition goals.
